

PROJECT MANAGEMENT AT BOĞAZİÇİ UNIVERSITY By N. Zeynep ATAY GÖK

Co-funded by the
Erasmus+ Programme
of the European Union

BAP Portal for Scientific Project Submissions and Project Management

BAP (Scientific Research Projects) plays an important role in facilitating research opportunities in Boğaziçi University.

In order to track all projects and apply for new projects via BAP funding, scientist should use the BAP Portal and should carry out the necessary steps online.

BAP Financial Coordinator

Scientist Portal and Project Lifecycle Application

The BAP Commission accepts new project applications online through the "Scientist Portal and Project Life Cycle Application" (system). Project coordinators log into the system with their institution registration numbers and passwords, and after completing the new project application steps, they forward their project applications to the BAP Commission for evaluation through the system.

1. Registration and Login Procedures for the Scientist Portal

Since 2010, the BAP Commission accepts new project applications online through the "Scientist Portal and Project Life Cycle Application" (system). You can access the system from the address www.boun.edu.tr, the "BAP" menu of the faculty members web home page or <https://bap.boun.edu.tr>. First of all, the registration to the system is completed. For this, if the information displayed on the screen is correct after entering the "Institution Registry Number" and "TR Identity/Foreigner Identity Number" by clicking the "Click to Enter the Application for the First Time" button, it must be confirmed (by clicking the "Registration" button). Then, enter the system by typing "Institution Registry Number" as the user name and "TC Identity Number / Foreign Identity Number" as the password. Those working as post-doctoral researchers can enter the system after being defined by the "BAP Administrative Coordinator". To change the password, use the "Scientist" tab, "Other" menu and "My Password Information" link.

Project coordinators can log in to the system with their institution registration numbers and passwords and start the process of transitioning to the new project application steps from the "My BAP Projects" tab.

2. Online Project Application to BAP Commission

3. Evaluation of Project Applications

4. Announcement of Project Application Decisions

5. Arrangement of Forms Related to Requests

5.1. Additional Budget Request

5.1.1. Publication Preparation/Writing Support

5.1.1.1. International Article

5.1.1.2. International Book Division

Review of Proposal

Project Review by BAP commission

- Once a new proposal is submitted, the head of BAP commission assigns 2 referees from our university
- The referees are selected based on the topic and key words of the proposal
- Referees have 2 weeks to complete their evaluation
- If a referee is not available, they can reject the review invitation
- Once 2 reviews are completed, the BAP commission evaluates the proposal
 - Accept
 - Revisions (major/minor)
 - Reject
- Budgets are reviewed to make sure they do not exceed limits and all purchases are justified.
- Project coordinators are immediately notified of the decision.

"Dear Scientist,

Since all project evaluation processes at Boğaziçi University Scientific Research Projects Unit are carried out electronically, we ask our referees to evaluate our projects using our automation system . within this system.

Thank you very much for your effort and support Scientific [Research](#)

Projects Commission The necessary steps to reach the project information sent to you using our automation system and to evaluate the project are listed below : **BAP"** menu or <http://bap.boun.edu.tr> 2. Enter your Institution Registry number as the user name without leaving any spaces (like 1234) ; Enter your password that was previously sent to you as an e-mail or the last password you changed and click the Enter **button** .

3. Click on the My Refereeing text on the top line of the special area that will appear.

4. While in the My Referees area, the project number will appear in the "Projects Pending Referee Approval" section on the left side of the screen and when you click on the Project Number, the summary of the project will appear in front of you.

5. After reading the abstract, if you want to be the referee of the project, press **I accept** the referee ; If you don't want to, write the reason and click **I refuse to be an arbitrator**. In addition, you can suggest a referee on the subject.

6. When you click on I Accept the Refereeing, the project file will appear in the "Project List" field on the left side of the screen for your evaluation.

7. In the Project List section, you can access all the information of the project by clicking the Project No. After examining the project, click the Evaluate button.

8. Fill in the form and evaluation report that will come before you.

9. Your evaluation will reach us when you press the Confirm button at the bottom of the report.

For more help; **You can send a message to bapdestek@boun.edu.tr** ."

	criteria			
one	When the research is completed, is it qualified to contribute to science and/or technology?			
2	Have the purpose of the project and the objectives to be achieved have been stated in sufficient detail and clearly?			
3	Is the method specified in the project proposal suitable for the purpose and the latest developments in this field?			
4	Is the knowledge and experience of the proponents in the relevant field sufficient?			
5	Are the required machinery-equipment and fixtures required? Are the justifications sufficient and consistent?			
6	Do you find the amount of support requested for the project appropriate?			
Evaluation Note (*) This Field is Required				
Proje No: 18801 Doktora Proje Adı: Karbondioksitin iyonik sıvı kaplanmış TiO2 üzerinde fotokatalitik indirgenmesi Süre: 12 ay Bütçe: 80.000 TL Projenin amacı, güneş ışığından yararlanarak CO2'in daha değerli kimyasallara (H2, CO, CH4 ve CH3OH gibi) dönüştürülmesini sağlayacak iyonik sıvı/es katalizör/duyarlılaştırıcı/yarı iletken bileşenlerinden oluşan etkili bir fotokatalizör geliştirmek ve son zamanlarda önemli giderek artan bu teknolojinin gelişimine katkı yapmaktır. Bu teknoloji ticarileşebildiğinde karbondioksit çevreye zararlı bir sera gazı olmaktan çıkarak önemli bir kimyasal girdiye dönüşecek				
Suggested Year 1 Budget (*) You Can Change the Suggested Budget				80000.0 TL
Evaluation Result*				
I am in the opinion of supporting the project				☒
The project should be supported if proposed changes are made				☐
I do not find the following Project worth supporting				☐

Applying for a New Project

SCIENTIFIC RESEARCH PROJECTS

ONLINE PROJECT APPLICATION

BAP PROJECTS PROCESS

- Since 2010, the BAP Commission accepts new project applications online through the "Scientist Portal and Project Life Cycle Application" (system). After completing the new project application steps, the project coordinators log into the system with their institution registration numbers and passwords and submit their project applications to the BAP Commission for evaluation through the system.
- To the system, <http://www.bap.boun.edu.tr> address, faculty members web home page "BAP" menu or <http://bap.boun.edu.tr>. First, the registration to the system is completed. For this, if the information displayed on the screen is correct after entering the "Institution Registry Number" and "TR Identity/Passport No/Foreigner Identity No" by clicking the "Click to Enter the Application for the First Time" button, it must be confirmed (by clicking the "Registration" button). Then, enter the system by typing "Institution Registry Number" as the user name and "TC Identity Number/Passport No/Foreigner Identity Number" as the password. Those working as post-doctoral researchers can enter the system after being defined by the "BAP Administrative Coordinator". To change the password, use the "Scientist" tab, "Other" menu and "My Password Information" link.
- "My Credentials", "My Contact Information" and "My Educational Information" fields under the "Scientist" tab, "Information" menu, and "My Publications (from +add link)" and "My Research Fields" fields under the "Academic Activities" menu. After the mandatory data entries are made, the project application steps can be accessed by clicking the "Transition to Application Steps" button at the bottom of the page opened by using the "Click for New Project Application" link on the top left of the screen from the "My Projects" tab. It is not possible to proceed to the "New Project Application Steps" without mandatory data entries.
- By filling in the "General Information, Project Summary, Keywords, Project Team, Project Schedule and Project Request List" fields in the project application, project application steps menu, on the system; The "Project Text" is created when the "Forms/Forms" link is clicked, the Turkish or English text suitable for the relevant project type is uploaded to the computer and edited, and then restored to the system with the "Browse" button.
- After all these processes are completed, the "Project Application Draft" is created by clicking the "Save" button. The project application saved as a draft can be accessed from the "My Projects" tab by clicking "Project Title" under the relevant "Project Support Type" tab.
- After the Head of Department and Dean/Manager complete the approval process through the system, the evaluation process of the project applications will begin.
- For further assistance; You can send an e-mail to "bapdestek@boun.edu.tr".
- You can see the result of your application by entering the "Incoming Messages" section in the "My Page" tab, and you can follow your accepted projects from the "My Projects" tab.
- For further assistance; You can send an e-mail to " bapdestek@boun.edu.tr " .

Use of Subjects in Projects

If you are going to use subjects in your project, please add the relevant Ethics Committee Approval from the field below

If people are used as subjects in research projects, the approval of Boğaziçi University Human Research Ethics Committee is required even if the experimental data has been collected before. When the research project is submitted to the BAP Commission for support; Simultaneously, the approval of Boğaziçi University Human Research Ethics Committee and the relevant ethics committee (Foreign Relations Ethics Committee, Environmental Ethics Committee, Institutional Animal Experiments and Care Ethics Committee) are applied for other issues. If the ethics committee approval was not obtained during the project application, the application petition to the ethics committee should be attached to the project application. In case the project is accepted, the approval of the ethics committee and all documents submitted to the ethics committee must be sent.
